# WHY SOLAR

## 1. QUICK PAYBACK

We can help you recover your costs in as low as 4 years while you continue to generate power for 25 Years.

## 2. INFLATION INSULATION

You are insulated from increase in your power bills to a large extent even though your Power distribution companies may increase electricity unit costs.

## 3. CARBON FOOTPRINT

While it makes absolute financial sense to install a solar system, don't forget that you are also reducing your carbon footprint.

## 4. HASSLE FREE SUBSIDY

Getting Subsidy was never so easy. Solar Energy Corporation of India (SECI) is offering Solar Subsidy for your rooftop grid connected system through its Empaneled Distributors.
